fashiontv DISTRIBUTION

Fashion TV succeeded to become the best distributed fashion and lifestyle TV medium and the most preferred channel in public places. FTV's popularity is the result of its world-wide coverage: the appealing format is recognized globally and established a well-known brand, while providing access to the newest and hottest fashion programs. A globetrotting and international audience associates the channel with luxury places, hotels, wellness and high-class venues. By distributing FTV and FTV HD digital, cable and analogue providers, DTH platforms, IPTV companies and new media technologies add value to their program offer as they open up to a new audience hardly covered by alternative channels.
